

CNC CMM, STRATO-Apex 776

High Accuracy, 700 x 700 x 600 mm

Item number: 355-502-10

Description

The challenges for measurement equipment are rising. Products are continuously improving as a result the lifetime of products is increasing while their energy consumption is reduced. Additionally, the throughput of production is driven up. All these facts must be taken into account for your measuring equipment. With the STRATO-Apex CMM, Mitutoyo offers you the opportunity to match both: precision and velocity.

This high accuracy CNC coordinate measuring machine that allows you to get accurate results at lightning speed.

The STRATO-APEX Series offers you the following benefits:

- High measurement accuracy and high-speed motion
- High-performance scanning
- Ultra high precision scales on each axis
- Anti-vibration system reduces the impact of nearby vibration sources (optional for 574)
- Multi-sensors capability

Features

Model:	776
Range:	700 x 700 x 600 mm
Loading	500 kg
Weight:	
Mass:	1895 kg
Power supply report:	UN 38.3 Test Summary Report

Spare parts

Consumable spares:	
	CR2450/G1AK button battery BD042
